

150 Unit 5 Phonics

B. Workbook pages 98 and 99

Have the children pronounce the words in the lists for each prefix. They need not know the definitions for all the words, but discuss them enough to be sure they can answer the questions in the exercises.

C. Spelling

Pronounce words from the edge list and dictate sentences.

Did he insist on playing tag?

Will Nan delay her work?

Extra activity

Have the children print from the edge list the words they do not know the meanings of (or the ones they do). If possible, follow up with a discussion period directed by yourself or an older student in which definitions are explained (or if the children printed known words, have them make original sentences with them).

Printing Practice

teaches the formation of each letter as it is introduced.

One-sided, tear-out pages, extra lines on back.

Actual page size is: 9.25" x 7".
