

Have you ever been hurt or sick? Did you need medicine or a bandage? If you were not hurt too badly, you probably were fixed up at home.

Your mother likely has a medicine cabinet where she keeps a supply of bandages and medicines for accidents and sicknesses. These medicines need to be used carefully. Never reach into the medicine

cabinet or drawer. Let your parents do that.

On some bottles you might see a sign like this. That tells us that the contents of the bottle are poisonous. If we would swallow some, we would become very sick and we could die. A sign like that is for our safety. Your teacher might show you a bottle like this.
