

Speed Drills

Speed Drills for Grade 4 come in a separate 8.25" x 5.25" tablet with tear-out pages. These drills are designed to be used every two days, corresponding with the pupil's even-numbered lessons.

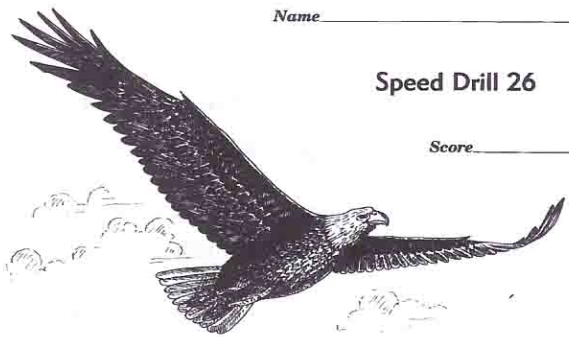

The front side of almost every Speed Drill looks like the reduced page to the right. The two drills below are about half their actual size. Teacher's Manual, Part 1, contains answer keys for the pages shown.

The Teacher's Manual contains copies of the speed drills (two per page, generally), with answers filled in. Such a page from Part 2 is shown on page 53.
