

**Lesson 12 Alignment**

The largest animal in the world is the whale. One whale grew to be over 100 feet (30 meters) long, and it weighed over 280,000 pounds (130,000 kg). Some whales could easily swallow a man.

We all like things to be straight. We like straight rooms, straight rows in our gardens, and straight, smooth highways. God likes things straight and in order, too.

Alignment in handwriting means to keep the tops and bottoms of letters even and straight where they should be. How well can you do?

Write these words correctly in the line below.

*good alignment poor alignment*

Copy this verse.

*"God is not the author of confusion, but of peace, an in all*

*churches of the saints." (Corinthians 14:33)*

Write this sentence. Is my alignment like the whale's back?

Alignment	15	Letter Spacing	10
