

The Unit 2 workbook has a map marked with city and region names. Various workbook lessons in this unit guide students to map out the apostle Paul's travels. When the unit is completed, each student will have a copy of Paul's missionary journeys. The completed map is shown in the Teacher's Manual. *Journeys of Paul Project Map*, a large 2-color wall map resembling the unfinished student workbook map, can be helpful for this unit. It is available from Rod and Staff Publishers, Inc..
